Features & Benefits

Fresh barista quality oat drink on demand, produced on-site at your business.

To prepare our oat drink in The Oater Barista machine, all you need is our Oater Mix, electricity and a fixed (waste) water connection.

Our fermentation process ensures a consistent quality in consistency, foam and flavor in every liter of oat drink.

The machine also has an automatic cleaning function for all interior components after each fermentation process.

The Oater Barista can produce 4,5 L of fresh oat milk in just 90 minutes.

Dimensions / Weight	
WxHxD (cm)	30x60x50
Weight (Kg)	40 kg dry, 50 kg wet
Housing Material	Aluminium, stainless steel
Water Connections	
Water supply	Fixed water supply (Tap water)
Max Water Pressure (bar)	6
Capacity	
Capacity of oat container (g)	600
Capacity of oil container (ml)	500
Capacity of detergent container (ml)	250
Water Usage (l/l)	20
Design Elements	
Display	7 inch IPS Touchscreen Capacitive 1024x600
Oat/Oil Container access	Top Plate (Seperate covers)
Drip Tray	Removable (easy to clean)
Oat Container	Removable, dishwasher safe
Service Opening	easy to wipe, stainless steel

Technical Data	
Power (W)	1600 W, Fuse 10 A
Voltage (V)	230V AC
Max Current (A)	10
Frequency (Hz)	50
Plug type	Schuko (F-Plug)
Dispensing Temperature (°C)	ca. 60°
Dispensing Flow Rate (L/min)	4.3

Connexions
electricity, fixed water supply, fixed waste water

Acessories - Included
The Oater Bottles, Labels, Oater Mix, Marketing Material (e.g. display)
